Group 4 – Long Huang, Andrew Lee, John Granell, Mert Dogan

### Assignment 5

#### Response 1

**Time of Connection to UDP port:** Tue Apr 18 19:03:46 2023

**Port Number (UDP):** 9016

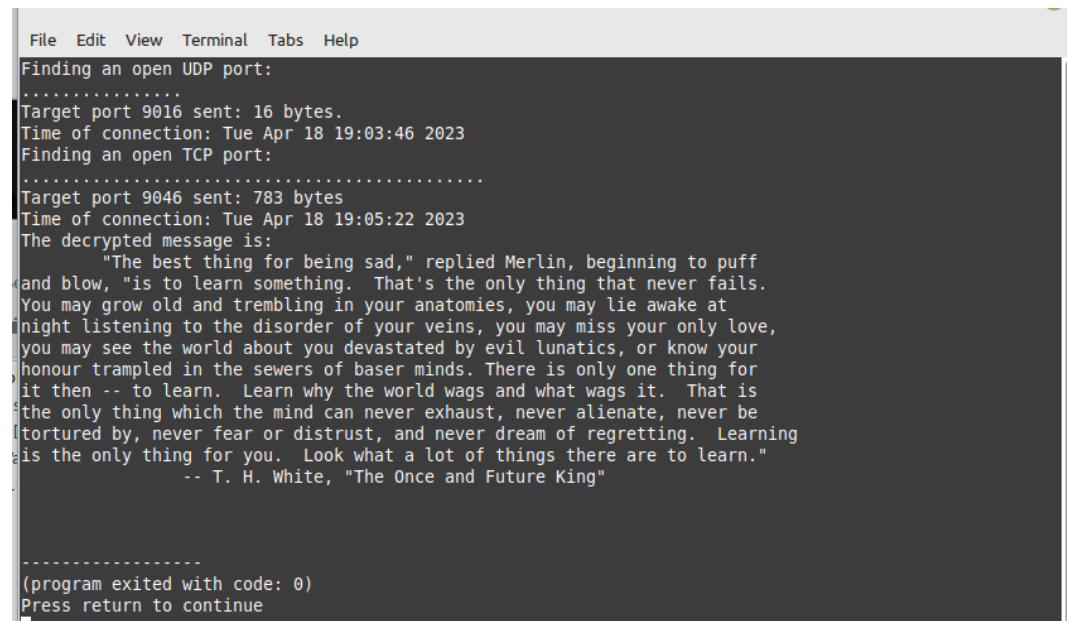

**Time of Connection to TCP port:** Tue Apr 18 19:05:22 2023

**Port Number (TCP):** 9046

#### **Decrypted Message:**

"The best thing for being sad," replied Merlin, beginning to puff and blow, "is to learn something. That's the only thing that never fails. You may grow old and trembling in your anatomies, you may lie awake at night listening to the disorder of your veins, you may miss your only love, you may see the world about you devastated by evil lunatics, or know your honour trampled in the sewers of baser minds. There is only one thing for it then -- to learn. Learn why the world wags and what wags it. That is the only thing which the mind can never exhaust, never alienate, never be tortured by, never fear or distrust, and never dream of regretting. Learning is the only thing for you. Look what a lot of things there are to learn."

-- T. H. White, "The Once and Future King"

"There is also a thriving independent student movement in Poland, and thus there is a strong possibility (though no guarantee) of making an EARN-Poland link, should it ever come about, a genuine link - not a vacuum cleaner attachment for a Bloc information gathering apparatus rationed to trusted apparatchiks."

-- David Phillips, SUNY at Buffalo, about establishing a gateway from EARN (European Academic Research Network) to Poland

#### **Decrypted Message:**

I ask only one thing. I'm understanding. I'm mature. And it isn't much to ask. I want to get back to London, and track her down, and be alone with my Selina -- or not even alone, damn it, merely close to her, close enough to smell her skin, to see the flecked webbing of her lemony eyes, the moulding of her artful lips. Just for a few precious seconds. Just long enough to put in one good, clean punch. That's all I ask.
